PRESIDENT STRONG AND THE SANTA FE.

The Topeka Daily Capital of the 10th instant contains an illustrated article on the late meeting of the stockholders and directors of the Atchison, Topeka & Santa Fe railway. The illustrations include the portrait of President Strong, General Manager Robinson, and General Solicitor George R. Peck, all formerly of Rock county.

As has been already stated in the Gazette, President Strong was re-elected unanimously. He has done the Santa Fe splendid service, and at this particular time the country especially decried the benefit of his experience and the influence of his personal work, and so there was a unanimous desire that he should remain with them. Mr. Strong did not follow the custom in former years of delivering an address, but announced briefly the object of the meeting. He then presented the seventeenth annual report of the directors, a volume of 165 pages, a summary of the important statements regarding the operations of the company during the past year.

There doesn't seem to be a railway president in the country who has stronger hold on the confidence of the stockholders than Mr. Strong. If high ability, unflinching enterprise, and unerring judgment are of any value to a railway company, then the Atchison system in its chief officer is the best equipped, read in the country, and the stockholders appreciate this fact.

The Topeka Daily Capital has this to say concerning the new board of directors:

William B. Strong has the confidence of all who know him and his removal to a point on the system will be considered a move in the right direction. If he had come a little further west—to Topeka—the people of Kansas would like it better. The remarkable harmony which characterized the meeting yesterday augurs well for the future of the company, as a house divided cannot fall. Messrs. Magoun, Baring, McCook and the other new members of the board are gentlemen of the highest social and business standing, who will not let the Santa Fe take less rank among great railroads than it has hitherto held. They will be made welcome by the people of the west as men who will help instead of hinder—men who will be to all interests and purposes as good citizens as there are in Kansas. We congratulate President Strong and all his many able associates.

BILL NYE ON BOARD.

Bill Nye, who is doing some good work for the New York World, gives his impression of Governor Hoard, and the service he has rendered the cow. The governor's friends will appreciate the dry humor of Nye's points:

Governor William D. Hoard, of Wisconsin, was registered at the Fifth Avenue hotel not long ago. He is a great hand for stock, especially cows, and has compelled the cow of Wisconsin, as one might say, to come out and take higher ground. I honestly think that Governor Hoard has done more to ameliorate the condition of the cow of his own state than any other man. Governor Hoard is a plan man. He and I appeared together once and spoke to the State Press association. People still look back upon the scene with horror. Governor Hoard runs a paper at Fort Atkinson called Hoard's Dairyman. It frequently refers to man. It has a large circulation, but to one who has never made the cause of the cow his own it is too subtle for him. The governor early gave his attention to the cow, and saw when young that she had been made a tool of, as one might say. That she was not encouraged to think for herself, and that her sex seemed to handicap her through life. He spoke for her words of encouragement and told her that she had the column of his paper he would advance her interests, and he has. The governor is also a humorist. But he does not allow the two things to interfere with each other. He never told a quiet humor into a veto, or executive edness into his humor. He can write a good article on ensilage among cows, and then before the ink is dry he can dash off a little something about the cow that will make one's heart bleed. I am especially fond of Governor Hoard and Governor Fitzhugh Lee. They are quite different, and during the war were quarreled to each other for a time; but they are over it now, and what I like about them especially is that they are not arrogant. When a man gets arrogant it is generally because he is afraid that if he converses he may be detected in the act of not knowing anything.

THE ELECTION LAW ALL RIGHT.

The Hon. H. A. Cooper, the framer of the new election law of this state, was in Madison on Saturday, and in an interview with a Journal reporter said there were no defects in the election law as stated in a Madison dispatch to the Sentinel. The alleged defect was as follows: "A serious defect is alleged to exist in the Cooper election law. It is claimed that there is no provision for the nominating papers and certificates to be handed to the county clerk sixteen days before election, and no provision which requires the county clerk to notify the secretary of state of the parties so nominated; hence that its secretary cannot certify to the county clerk the names of each person nominated as specified in the certificate of nominations. The alleged defects are in sections 8 and 10."

Senator Cooper now makes the statement that no such a defect exists in the law; and he explains that the tickets on which the names of all candidates nominated are printed are to be printed by the county; whether for a state or county election, or both. The secretary of state is to certify to the various county clerks the nominations for state officers made in due form, and the county clerks

place these on the tickets with the names of nominees for county offices. As the state does not furnish the tickets there is no necessity for certifying nominations of county officers to the secretary of state.

SOME COSTLY HELP.

Secretary of State Timme has completed for publication a table showing the expenses incurred by the late legislature. It is both interesting and suggestive. For the chief clerk's department in the senate the total expended was \$14,597.53, \$8,163.50 for the sergeant-at-arms, and \$2,310 for committee clerks, which makes a total of \$25,071 for the senate employees.

In the assembly it required \$15,966.38 to run the chief clerk's office, \$13,279 for the sergeant's department and \$82,586.50 for committee clerks, the total making \$30,831.88. In addition to this the joint committees cost \$576.75 for clerical hire. These items, footed up, show that the total amount incurred for legislative employees was \$56,579.43.

The most surprising thing connected with the legislature except its long session, was the number of employees. If we understand aright the report of Secretary Timme, the clerical force in the senate numbered 85, while that of the assembly reached 152, the latter being as follows: 96 in the chief clerk's department, 46 in the department of the sergeant-at-arms, and 10 committee clerks. This makes 237 employees, nearly twice as many employees as there were members.

The work of the high license court in Philadelphia is showing up pretty well. The number of saloons has been reduced to 1,203, and the number of wholesale dealers has been reduced to 375. The press of that city says the slaughter among the wholesale applicants in proportion to their number was great, only about 58 per cent having been allowed a license, this being due to the attempt of that number to sell at retail under a wholesale permit. The Philadelphia law seems to work perfectly, not only in reducing the number of saloons to the minimum, but in the exertion of a moral influence. The Press says that the saloon keepers have discovered that a good reputation has a money value and they will zealously guard that reputation during the coming year, and that the wholesome and restraining influence of the law will be even more marked this year than it was last. The sight of 1,203 saloon keepers obeying the laws and keeping orderly places instead of nearly 6,000 lawless saloonkeepers doing what they please—and all within two years of the laws operation—ought to be an interesting and profitable spectacle for prohibitionists.

"One of the most hopeful signs of the times is that the southern press is busy in laudation of southern resources and in advocacy of their development. This is far better than discussing the race question. It is, indeed, doing much toward setting it. For when there are hundreds of iron works and hundreds of cotton factories and scores of new towns and a hundred thousand more people mostly white immigrants, in Alabama or Georgia, the excess of population will be white, while the minority, always a group, of colored voters, will be divided upon questions of policy and finance." And yet there are southern newspapers that are crying down the capital that develops the resources of the south. There is nothing that so strongly tends to build up the industries of the south as the protection to home manufactures. The newspapers of the south, at least many of them, are attempting to kill the goose that laid the golden egg.

A word of encouragement to those who should cheer up, from the Waterbury Republican: There can be no doubt that the people of the present generation—mugwumps excepted—might be better than they are; but it is comforting to find someone who is willing to say that we are not as bad as we were. We hope that the Jeremiahs of the press who have been making so much lamentation of late about the degeneracy of the times will lay the soothing balm of Dr. Potter's sermon to their souls and chirp up a little.

Frank Leslie's Illustrated Newspaper has passed into the hands of its recent purchasers, J. W. Arkell, proprietor of the Judge, and Russell B. Harrison, and the initial issue shows the benefit of the change in a marked way. Mr. Harrison will do much of the business work about the office—not going on the paper as a figure-head. The Leslie ought to be able to succeed. Since Harper's Weekly went over to the democratic party, a place has been made for a lively, able, and handsomely illustrated newspaper.

John D. Rockefeller, of Ohio, the standard oil king, offers the Baptist educational society \$900,000 for an institution of learning. It is said that Rockefeller is the wealthiest man in the United States, perhaps the wealthiest man on earth. His fortune has been estimated as high as \$600,000,000 and he is said to be in receipt of an annual income of \$20,000,000.

The fact that Gladstone has refused \$25,000 for a short series of articles for an American newspaper, brings to mind the beautiful and ever memorable words of Agassiz, when a lecture bureau offered him \$3,000 a lecture for a course of four or five. He declined by saying "I am too busy to waste my time in making money."

The North American Review, of which the late Thordike Rice was the editor and proprietor, will hereafter be edited by Gen. Lloyd S. Bryce, whom Mr. Rice had engaged to manage it when he was preparing to go to Russia. Allen Thordike Rice left an estate valued all the way from \$5,000,000 to \$10,000,000. An uncle and three aunts are his nearest living relatives.

PLACED IN CHARGE.

Judge Malott Appointed Receiver of the Chicago & Atlantic.

CHICAGO, May 20.—Judge Gresham Saturday appointed Judge Volney T. Malott of Indianapolis receiver of the Chicago & Atlantic railway. It was agreed Friday by all parties concerned that it was necessary to put the affairs of the railway company into the hands of a receiver, and Friday afternoon and Saturday morning were devoted to a discussion on the selection of a suitable man for the office. George M. Beach was proposed as available, but the fact that he was formerly connected with the Erie railway caused some opposition.

Saturday morning the attorneys for the various interests met in the United States court and continued their fruitless discussion. Judge Gresham entered the courtroom and after an informal talk with the lawyers took his seat on the bench and said that in view of the apparent necessity of immediate action he had resolved to make the appointment at once. Mr. Beach had been suggested, but in view of the opposition to him the court had decided on another man—Judge Malott of Indiana.

The proposition was immediately acquiesced in by all the attorneys, and Judge Malott was appointed with instructions to employ Mr. Beach in the management of affairs. The receiver's bonds were placed at \$200,000, and Judge Malott soon qualified.

The new receiver is considered a capable man. He is president of the Indiana National bank of Indianapolis, and is vice-president and general manager of the Union railway company of the same city. His ability as a financier and railroad man is unquestioned, and the appointment seemed to meet with general approbation.

FIRE AT SOUTH CHICAGO.

The Damage Said to Be in the Neighborhood of \$50,000.
CHICAGO, May 20.—A fire broke out shortly after 10 o'clock Friday night in the vicinity of One Hundred and Sixth street and Avenue K, East South Chicago, destroyed nine houses—two two-story brick, three two-story frames, and four frame cottages.

Twelve barns were also licked up by the flames and the total damage is between \$40,000 and \$50,000. The houses were occupied almost entirely by foreigners employed by the rolling mills, most of whom owned their homes and had them well insured. Some of them lost all their household effects, but the occupants of the buildings reached last by the flames saved almost everything of value. The scene of the fire is just across the river from Cummings, which was visited by a destructive fire only a few hours before. The entire district is so poorly supplied with water that at both fires the firemen were almost powerless, the cisterns and wells being quickly exhausted. Both fires started in barns in the most unaccountable manner and in localities where the flames were sure to spread.

FORT WAYNE'S DRY SUNDAY.

All Saloons Closed for the First Time in a Quarter of a Century.
FORT WAYNE, Ind., May 20.—Mayor Harding's proclamation ordering all saloons, drug stores, and cigar stands to close on Sunday went into effect Sunday, and for the first time in over a quarter of a century not a drink was obtainable in this city until Monday.

The Mayor's jurisdiction extends two miles beyond the city limits, and all road houses, summer gardens, and breweries were likewise closed. The liquor dealers' association had spotted out and will prosecute milkmen, butchers, the street car company, newspapers, and all persons who followed their usual vocations.

Another Ocean Racer.

New York, May 20.—The new twin screw steamer of the Hamburg packet line, the Augusta Victoria, has just completed the fastest trip ever made across the Atlantic. She brought forty-five cabin passengers and 734 immigrants. She made the voyage from Hamburg to New York, 3,478 miles, in eight days and one hour, equivalent to six days and two hours from Fastnet to New York. Taking off four hours which the steamer was delayed on the 17th and 18th because of heated journals, and the actual time between Fastnet and Sandy Hook lights was five days, twenty-two hours and thirty minutes, or better than the great voyage of the new ocean greyhound, the City of Paris.

LAND FOR DAKOTA SETTLERS.

The Fort Sisseton Military Reservation to Be Thrown Open June 1.
ANDOVER, Dak., May 20.—What has been known for half a century as the Fort Sisseton military reservation will, June 1, be thrown open to settlement. The reservation embraces about 500,000 acres. Until a year ago two companies of United States soldiers were stationed at Fort Sisseton, but at that time the force was reduced to one company. The entire Government property will be sold at public auction June 6. A few hundred acres lying close to the fort is under a high state of cultivation, the garnison for years raising all the vegetables needed to supply themselves the year round. The body of the land will be subject to homestead entry only. Much of it is heavily timbered with oak and cottonwood, and fine natural lakes and springs abound. Adjoining this military reservation is the Sisseton Indian reservation, embracing 3,000,000 acres and inhabited by 3,000 Indians, many of whom have taken land in severalty. These Indians enjoy a high state of civilization.

Forty-nine years ago, the Rev. Dr. Adams, a Presbyterian missionary, came among the Indians who then lived on New Lim, Minn., and later took part in the New Lim massacre, and when they were taken to their present reservation he came with them. The Indians have a fine school under the supervision of Dr. Adams, who is still hale and hearty, although 80 years old. The Indians have also the benefit of a boarding school. This school has a boys' and girls' hall and employs five teachers, supported wholly by the Presbyterian Board of Home Missions, and receiving no aid whatever from the government. There is an average attendance of about 120. A half-mile south of the nine large buildings comprising the Presbyterian school is a government school of one building employing three teachers. Miss Cornelia White of Wells University, a former teacher of Mrs. Grover Cleveland, is taught in the Presbyterian school about three years.

It is proposed after a time to settle the Indians in severalty, giving each one 100 acres of land and open the rest to settlement.

FUNERAL OF MR. RICE.

Many Distinguished and Representative Men Act as Pall-Bearers.
New York, May 20.—The funeral of Allen Thordike Rice, United States Minister to Russia, took place from Grace church Saturday morning.

The pall-bearers were Vice-President Morton, Walker Blythe, representing the State department; Gen. W. T. Sherman, ex-Mayor Edward Cooper, Pierre Lorillard, Chauncey M. Depew, S. H. Olin, William F. Douglas, and W. W. Astor. Among the funeralists were pieces from the President and Mrs. Harrison and Secretary and Mrs. Blaine. There was a large and distinguished attendance.

Dakota's Crop Prospects.

Huron, D. T., May 20.—A number of reports from South and a few from North Dakota say that frequent rains and cold cloudy weather for the last ten days have been excellent for small grain crops, which are in a promising condition, especially in South Dakota. Corn is somewhat retarded but unharmed.

REPORTED THAT BOULANGER WILL BE BANISHED.

Progress Toward Settlement of the German Miners' Strikes—A Nihilist Plot Unearthed—Foreign.

PARIS, May 20.—The haute cour has not yet finished its labors, and in spite of the extraordinary reserve unusual to this gossiping town it crops out that Boulanger will be banished. Whether this is a result natural to the discovery and writing up of a long history of crime, or a foregone conclusion to governmental necessity, is not divulged, and to write frankly no one seems to care anything about it. The Marseillaise, momentarily, at least, outflows the Boulanger anthem.

Rumors concerning the health of the General became so persistently alarming that finally great scientific names were called in to vouch for the statements. When Dr. Brongard, one of the most eminent French physicians, found words of precise meaning and even dates of probable life put in his mouth he came out with a short, clear letter that not only had he never seen Gen. Boulanger but he knew nothing about his condition and that had he been consulted as a physician he would know enough to hold his tongue. This frank precision has not linked gossip for the present.

MINERS WILL RESUME WORK.

The Great Strike in Germany Will Soon Be Settled.

BERLIN, May 20.—The delegates of the Bochum miners decided to resume work Tuesday. The strike continues at Wurm, the owners refusing to concede the demands of the miners. The mine-owners of Sövelka, at a meeting to-day, opposed the eight hour shift, but expressed their willingness to negotiate on different basis. A magisterial warning against intimidation has been issued.

IT WAS A GIANTIC PLOT.

The Conspiracy Against the Car Wide-spread—Hundreds Under Arrest.
LONDON, May 20.—Advisers from St. Petersburg say that it has been discovered that the conspiracy against the Car among military officers, which was recently unearthed in that city, has many and wide-spread ramifications. Officers of regiments stationed in Moscow and Warsaw have been found to be implicated in the plot and three of them have committed suicide. A bomb has been discovered in the quarters of one of the officers at Warsaw. Hundreds of the conspirators have been placed under arrest. The discovery of this plot has completely unnerved the Czarina.

News Notes From Paris.

PARIS, May 20.—Felix Pratt, the well-known radical member of the chamber of deputies, is seriously ill, and at his advanced age doubt is felt of his recovery. An express train from Bologna filled with visitors for the exposition, including a number of Americans, ran off the track in a tunnel. No one was killed but there was a great panic. It took two hours to extricate the train.

An Ocean Steamer on Fire.

LONDON, May 20.—The steamer Emiliano, from New Orleans to Liverpool, put into Queenstown this morning with her cargo of cotton affire. She sent ashore for assistance, and will probably have to discharge most of her cargo in order to extinguish the flames.

Another Ocean Racer.

New York, May 20.—The new twin screw steamer of the Hamburg packet line, the Augusta Victoria, has just completed the fastest trip ever made across the Atlantic. She brought forty-five cabin passengers and 734 immigrants. She made the voyage from Hamburg to New York, 3,478 miles, in eight days and one hour, equivalent to six days and two hours from Fastnet to New York. Taking off four hours which the steamer was delayed on the 17th and 18th because of heated journals, and the actual time between Fastnet and Sandy Hook lights was five days, twenty-two hours and thirty minutes, or better than the great voyage of the new ocean greyhound, the City of Paris.

LAND FOR DAKOTA SETTLERS.

The Fort Sisseton Military Reservation to Be Thrown Open June 1.
ANDOVER, Dak., May 20.—What has been known for half a century as the Fort Sisseton military reservation will, June 1, be thrown open to settlement. The reservation embraces about 500,000 acres. THE WAR OF THE RACES.

FOUR MEN SHOT DOWN AT

FOREST CITY, ARK.

One Negro and Three White Victims of

a Bloody Fend Growing out of a

School Election—Crimes.

FOREST CITY, Ark., May 20.—A desperate

shooting affray which cost the lives of

four men occurred yesterday in the

slaughter grew out of an election for

school directors. A. M. Neely, a colored

editor, became involved in a quarrel with

a white man, and when he found he was

getting worse of Sheriff

Parham for protection. A dozen or more

revolvers flashed in the air and a perfect

volley was poured after the fleeing negro.

Neely escaped for the time being, but

Thomas H. Parham, son of the ex-sheriff,

Sheriff D. M. Wilson, and Marshal Frank

Folbre were killed.

Neely, his father and brother took

refuge in the adjacent mountains. They

barricaded the doors and every effort to

dislodge them proved unavailing. About

2 o'clock Sunday morning several shots

were fired into the building, but the

negroes remained in the building, and the

Acting Sheriff Van B. Izard persuaded old

man Neely and his son to come out,

promising them safe conduct to the jail

as a trial. A. M. Neely did not ap-

pear. The sheriff was disappointed, and

more than a hundred yards distant with two

prisoners when a number of other mem-

bers of the posse reached the Advocate

building. A. M. Neely was discovered

secreted under the floor and was riddled

with bullets, at least ten shots being fired

into him. It was thought that others of

the Neely gang were concealed under the

floor, and that an extended

search, but found no more.

The last killing caused a great deal

more excitement, and the people were

afraid of a riot on the town by the ne-

groes. The acting sheriff, Major George

James P. Eagle the facts and asked that

a company of militia be ordered here. The

Governor replied that he thought the civil

authorities could preserve the peace, and

he did not want to order out the militia

unless all other means failed. Gov. Eagle

thought he could be better able to judge

of what was needed by being on the

ground, so he took the train for Forest

City, and is now here and will remain

until quiet is restored. He is in constant

communication with Adj. Gen. John C.

England and if they are needed the Mc-

Curry light guard will be ordered to

special train at a moment's notice. The

company is well equipped and will be able

to handle most any kind of a mob.

It is now thought that there will be no

further trouble. The feeling

Boys' and children's suits at prices that

CRUSHED BY A CASE OF LEAF.

S. Holdredge Struck by a Four Hundred Pound Tobacco Case.

His Left Shoulder Hurt and His Left Leg Seriously Injured.

Mr. S. Holdredge was caught under a falling case of tobacco this afternoon and badly hurt. The accident happened about three o'clock at the warehouse of Green, Holdredge & McGee, across the track from the Milwaukee & St. Paul freight house.

Mr. Holdredge and F. O. Greene were getting down the case of leaf from a tier close to the ceiling. In some way it slipped and came down with terrible force bearing Mr. Holdredge under it to the floor. The case was one weighing about four hundred pounds, and falling from such a height, it was feared that fatal injuries had been inflicted. It was found, however, that Mr. Holdredge's only injuries were about the shoulder, which was badly bruised, and the left leg. The ligaments of the knee were entirely torn away, and the knee cap was badly crushed. As soon as possible Mr. Holdredge was removed to his home. His injuries are pronounced to be severe and likely to be long in healing.

BRIEFLETS.

—Little Gypsy Operetta.

—Regular meeting of the common council this evening.

—May assessments in the Building Association were paid to-day.

—Supervisor Lynch is reported to-day as resting considerably easier.

—Miss Kittie Graham has returned from a visit with friends in Detroit.

—The Doll's Brigade at Lappin's Hall to-morrow night, is best thing of the season.

—A dance of the Night Owl Club will be held at one of the up-river parks about June 11th.

—The Light Infantry will meet this evening to take action upon the Memorial day invitations.

—Do not fail to see the grand floral march by the children in the opera of "The Little Gypsy" to-morrow night.

—The questions of a city market place and a new and commodious city hall will soon occupy the minds of Janesville people.

—Presbyterian young people will enjoy a "social topics" party at the home of Dr. O. G. Bennett on High street Friday evening.

—The Gypsies will join the village children in their May day festival at Lappin's opera house next Tuesday and Wednesday evenings.

—Crystal Temple of Honor No. 32 assemble in regular weekly session this evening—lodge room in the Judd block, North Main street.

—Charles A. Potter received from Los Vegas this afternoon the following dispatch: "Ed is failing steadily. The doctors say there is no hope."

—Mr. and Mrs. Henry Lovejoy, of Plankinton, Dakota, are in the city the guests of Mrs. Lovejoy's parents, Mr. and Mrs. Washington Kelley, 133 Locust street.

—Mrs. H. S. Conger is in the city for a short time visiting her daughter Mrs. Horace McElroy. Mrs. Conger is on her way to San Francisco from Pennsylvania where she spent the winter.

—The most pleasing entertainment of the season will be the opera of the "Little Gypsy" given by the Children's Musical Society, next Tuesday and Wednesday evenings at Lappin's opera house. Tickets for sale by the children.

—Col. William Helm has written Capt. Koebelin, inviting him to spend the Fourth of July with the Light Infantry at Madison. An elaborate celebration is being arranged, and Colonel Helm offers to see to it personally that the Janesville boys are well cared for.

—"Evolution in Religion" was discussed by the Rev. S. S. Hunting, of Des Moines, Iowa, at All Souls church yesterday. The plea made for more reason in religious creeds, it being urged that in no advance commensurate with the advance of the age had been made.

—An adjourned meeting of the Modern Woodmen of America will be held at their lodge room Tuesday evening at eight o'clock. A full attendance is desired. Business of importance is to come before the camp.

—"Sorrowing friends listened to-day to funeral services over the remains of Mrs. Dayton Flag, who was killed by lightning Friday night. The services were held at the home of the family between this city and Beloit, and at the close the remains were taken to Michigan for interment.

—"The custom introduced in the Congregational church a short time ago of having the Sunday school classes brighten the church with flowers on successive Sundays has awakened much pleasant comment. The decorations yesterday were unusually effective and were in cheerful contrast to the clouds outside.

—"There was an enthusiastic gathering at the Janesville Grange hall yesterday afternoon, the object being the organization of a Sunday school. Addresses were made by Rev. Richard Miller and Mr. J. T. Wright. Mr. Miller will preach in the same place next Sunday afternoon, 20th inst. Immediately afterward the Sunday school will meet.

—"Mr. John Manning returned to Chicago this morning for the purpose of engaging in the fruit and commission business, being located at 131 Water street. Mr. Manning has had several years experience in handling fruit, and is a hustler in the business. His Janesville friends and customers will wish him continued success.

—"Captain Richard Griffiths, of the side-wheel steamer 'Mayflower,' will open his pleasure park for the summer season on next Sunday, May 26th. The 'Mayflower' will make regular trips to and from the park. This park is pleasantly situated on the bank of the river just this side the four-mile bridge. Captain Griffiths will receive a liberal share of patronage.

—"Mr. M. Dearborn, of the Leigh Valley Railway, Waverly, New York, is in

HIS CHECKS ARE BROUGHT BACK.

Silas Hayner's Thousand Dollar Remittance Is Safely Recovered.

Hundred-Dollar Checks Found Pinned Up in the Youthful Robbers Room.

A rapidly-drawn carriage brought from Beloit yesterday most of the one thousand dollar remittance that was stolen by ten-year old thieves in Beloit. The checks were turned over to Mr. Hayner, by whom they had been sent, and the driver of the carriage returned, feeling considerably easier.

Part of the checks were found in an alley-way and part were pinned up around the room of the youngsters who were arrested. They were stolen May 5th, but their whereabouts was brought to light by the theft of last Friday, Mr. C. P. Whitford, manager of the Insurance compact, has known for some time that he was losing mail matter, and Wednesday morning his entire mail was taken from his box. The postmaster and City Marshal North were notified and measures were immediately taken to ferret out the matter.

Mr. Whitford changed his box and the old box was loaded with decoy letters. Friday the box was discovered open and voices attracted the attention of those inside, and looking out at convenient corners, Miss Babbitt saw three boys looking over the decoy letters. Mr. Lincoln started out at the side door to head them off, but they took alarm at something and hastily put the letters back in the box and scurried across the bridge. But the postoffice officials had a good look at them and an eye was kept on the street. Very shortly two of the boys were meditating on their folly and sniveling in the quay.

Only one of two was held, he giving his name as Willie Youngs. Youngs says that he found Mr. Whitford's box unlocked Wednesday morning. By rattling it, the drawer will come open, and the boy had been seen tampering with it. He denies having anything to do with the robbery during the first part of the month. Beloit authorities think it certain that others than the young boy had a hand in the matter.

The mail stolen from Mr. Whitford's box includes all the remittances sent him by Janesville agents on the first of the month. Settlements with all the companies doing business in Janesville and Beloit are made by the local agents through Mr. Whitford, their accounts and drafts going through his hands before being sent to headquarters. Thus far only Mr. Hayner's remittance has been recovered the checks sent by Mark Ripley being still untraced.

TO THE MANAGER HORN.

J. L. HUGHES AND THE WORK HE HAS DONE IN MUSICAL FIELDS.

J. L. Hughes, leader of Janesville's musical society, is as thoroughly esteemed in Chicago as in this city. The Sunday Tribune in a two column review of Chicago choir records him the following pleasant mention:

John L. Hughes, the present choir-master of St. Mark's, is to the manner born, being the son of the late T. J. Hughes, a noted baritone of Liverpool, England. The elder Hughes was for many years chorister at the celebrated St. Nicholas church, which is one of the most prominent objects that meet the eye on the approach to the city. The young Hughes began as a chorboy and rapidly advanced till he was selected at the age of 13 from nearly a hundred applicants as the principal treble for the choir of New College, Oxford. His voice developed into a rich alto, and he and his father had an extensive reputation as soloists. Three of the brothers had mean while been members of the Queen's Own choir at Windsor. At the formation of St. James's choir Mr. Hughes accepted an offer from the vestry of that church, although holding the position of choirmaster in one of the finest choirs in Liverpool, and in the fall of 1883 began the training of the boys. Mr. Hughes remained as choirmaster for one year, and was then obliged to resign on account of ill-health. He went to his home in Liverpool, and from there made a voyage around the world, returning to Chicago from the west. He again took up choir work at his old place, but is at present on a trip abroad for the summer.

THEY HAVE A NEW LEADER.

THE BOWER CITY BAND IS READY FOR WORK.

For some time past a subscription paper has been circulated in behalf of the Bower City Band. The responses from Janesville business men have been such that the band will soon be on a sound basis.

Hereafter that band will be in charge of A. Crampton, of Fond du Lac, Mr. Crampton is a leader of experience, is a thorough instructor and will do much to raise Janesville's pioneer band to its former standard. He is not a stranger in this city, having had several times during the past winter in Myers Opera house orchestra.

WILLIS EVANS TO WAUKESHA.

HIS SENTENCE TO WAUPUN REVERSED TO-DAY.

The case of Willis Evans was brought before Judge Patterson again to-day. A plea was made by his mother that the sentence be changed from one year at Waupun to commitment to the Industrial school at Waukesha.

Evans is a boy hardly eighteen years of age and has never before been connected with wrong-doing of any sort. Taking his age and his previous character into consideration Judge Patterson decided that the change in sentence should be made. Evans will probably be entered on the Industrial school rolls to-morrow.

An Eastern Melody.

Had a ruby which lighted his place at night. More precious than gems are beautiful teeth, which light up the face when displayed by a smile. Use SO-ZODON, and your teeth will be brilliant as jewels, your breath sweet as the roses of Oshmore.

Pearl Soap is the most elegant toilet adjunct.

HER BARN WAS WIPED OUT.

LIGHTNING DOES DAMAGE ON SUNDAY AFTERNOON.

Special to the Gazette.

EVANSVILLE, May 20—All of the barns of Mrs. Harrison Stebbins, of the town of Porter, were struck by lightning yesterday afternoon and burned to the ground. The loss is estimated at \$4,000, partly covered by insurance in the Rockford Insurance Co.

TWO FAVOR MR. THOM.

ROCK COUNTY LIKELY TO LOSE A WIDE AWAKE SUPERINTENDENT.

Portage Daily Register: The decline of Mr. Hiram Smith, of Sheboygan Falls, compels Governor Hoard to look elsewhere for a state dairy commissioner. Thus far two names have been prominently mentioned. These are H. O. Adams, of Madison, and H. C. Thom, of Rock. Both are young men, and in every way competent to perform the commissioner's work. Mr. Adams is the present superintendent of public property. In addition to the work of the office he finds time to devote considerable attention to the operation of a large farm he owns near there. He is a graduate of the state university, and since the organization of the farmer's institute work, has as lecturer and conductor, been quite closely identified with it. Mr. Thom is a younger man and is not so generally known. Until the farmer's institute work was begun his fame was bounded by the borders of Rock county, but during the past two years he has become known to farmers throughout the state as an active institute worker. In 1886 he was elected superintendent of schools in the Second Rock county district, and he now holds that position. Mr. Thom graduated from Beloit college and is about 32 years of age. The term for which the appointment will be made will expire in February, 1891.

A CATHOLIC MISSION.

NOW IN PROGRESS AT ST. PATRICK'S CHURCH.

The Rev. Father Cook, of Detroit, Mich., commenced a series of mission meetings at St. Patrick's church Sunday morning at 10:30 o'clock. The meetings will continue through the week; and every morning at 5:00 and 8:30 o'clock, mass will be celebrated, after which a sermon will be delivered. In the evening, at 7:30 o'clock, a sermon will also be delivered. Father Cook is no stranger in Janesville, he having conducted a mission in St. Patrick's church about a year ago. He is an earnest worker, a fine speaker, and very favorably impressed all who listen to him. He is accompanied in giving missions, by able assistants. The public is cordially invited to attend any or all of these services.

IT BEAT A CYCLOPE.

JOHN CORCORAN TRIES HIS HAND IN A RAILROAD WRECK.

J. E. Corcoran, formerly of Rock county, and well known in this city, now has a store near the Yellowstone Park, Wyoming. His trip through the Rockies was of great interest to him. He was in a recent wreck on the Northern Pacific road, and writes that while he came out whole, it was a fearful experience. John with others went through the Beloit cyclone, and he says further: "I used to think a cyclone was a pretty bad thing to be in, but it doesn't hold a candle to a railroad wreck like the one I was in. There were ten cars and two engines piled up in less space than two cars would naturally occupy."

TO MARK CHILDREN'S DAY.

JANESVILLE CHURCHES WILL OBSERVE IT WITH SPIRIT.

In most of the Janesville churches yesterday announcements were made for the observance of Children's day on the Second Sunday in June—June 9th. Beginning with the Methodist church the observance of the day has spread until two weeks from next Sunday is likely to bring out children in churches of nearly every denomination. Programmes are already in preparation in the various churches, and the day is likely to be generally observed.

THE WEATHER.

At seven o'clock yesterday morning the thermometer indicated 64 degrees above zero. Clear with south wind. At one o'clock p.m. the register was 75 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours last year the register was 45 and 62 degrees above zero. At seven o'clock this morning the thermometer indicated 56 degrees above zero. Partly cloudy with north wind. At one o'clock p.m. the register was 59 degrees above zero. Partly cloudy with northwest wind. For the corresponding hours one year ago the register was 47 and 70 degrees above zero.

TAKING LIGHT IN THE HAND.

Special meeting of the Janesville Light Infantry to act upon Memorial Day invitations will be held this evening. A full attendance is desired.

F. H. KOEBELIN.

BITS FROM SUNDAY'S PULPITS.

REV. MATTHEW EVANS.—Christ expects each one to reflect His image. Whatever we do we should be able to ask ourselves the question, "How would Christ do this?"

REV. S. P. WILDER.—Every person's influence is necessarily bad who is not enthusiastic to cultivate a purer, truer, nobler nature in himself and all about him, and who is not ready at all times to denounce evil when he sees it.

REV. W. F. BROWN.—In modern fashionable religion it has become more and more usual to have the element of fear pushed out of sight. While danger exists fear may well be shown and should exist only when the danger is past. A right fear is recognized as fitting in every Christian's life.

REV. G. H. TRAVEL.—The law of Sabbath rest is written upon the constitution of inanimate matter and upon every fibre of man's body, as well as upon his moral and religious nature. Man is not as some think merely a stomach with various bodily appendages.

REV. M. G. HODGE, D. D.—I have noticed that it is the member of a church who attends only when it is perfectly and wholly convenient and who when he does come comes in the guise of a stranger that complains of his church being unsocial. He complains that he "doesn't feel at home." But he would not expect to feel at home even in the house of the most hospitable man along the street if the man's name was the only thing he knew about him.

BIRD'S LION LOOSE.

A FORMER RESIDENT OF JANESVILLE STUNS UP CHICAGO.

The big mountain lion that used to furnish excitement down at the Spring Brook farm every week or so, gave an exhibition on Halsted street in Chicago last Saturday night. The cage in which it was kept was knocked over by a switch engine while the procession was crossing the Chicago & Evanston track. The lion, a panther and two wolves escaped. The wolves were soon captured, but the lion got under a pile of dressed lumber and the panther perched on a stack of two-by-fours. Both were as much frightened as the crowd, but how to get them locked up again was a question. The showmen fully realized that if they turned their attention to capturing the lion the panther would jump down from his aerial perch and attack, while if they went for the panther there was no string on the lion to keep him in his hole. Finally the two were caged, but it took most of Halsted street and a number of long pike poles to do it, and the north side people feel a little nervous even yet.

JANESVILLE GETS BACK.

THE LIGHT INFANTRY BOYS SLAP AT BELOIT IN PRIDE.

When the Milwaukee Journal's representative among the officers of the Light Infantry, sent in his budget last week, a gentle rap at Beloit was included. The Journal says:—

At the semi-annual muster of the Janesville Light Infantry forty men responded to the roll-call and a very creditable drill followed.

Target practice is held every week, and the scores that are being made only tend to increase the growing popularity of the company. The last annual report of Adj.-Gen. Chapman shows the available work done by this company, both at Madison and at Camp Douglas.

The inspector of small arms practice of Co. E, we see, has some conceptions as to turning our wind gauge the other way; we are surprised at his leaguishness after the defeat that this team suffered from the hands of some of our recruits. But if the Beloit team is not yet satisfied with defeat, we will try to inflict another on them.

THE KNIGHTS TEMPLAR.

A DELEGATION OF TWENTY-FIVE OR THIRTY WILL VISIT BELLOIT THIS EVENING.

A delegation of twenty-five or thirty members of Janesville Commandery No. 2, Knights Templar, will visit the Commandery at Beloit this evening. The Janesville Sir Knights will wear their uniforms and will take tickets on the Chicago, Milwaukee and St. Paul railway, leaving the Janesville depot at 6:30 this evening. The Beloit Commandery will work this evening in the Red Cross and Templar degrees, and the Janesville party will no doubt be royally entertained. The party will return later in the evening.

The prevalence of scorbutic taint in the blood is much more universal than many are aware. Indeed, but few persons are free from it. Fortunately, however, we have in Ayer's Sarsaparilla, the most potent remedy ever discovered for this terrible affliction.

T-SHOP MAILS.

Sales of Seed Leaf tobacco reported by J. S. Gans' Son & Co., Tobacco Brokers, No. 131 Water street, New York, for the week ending May 20, 1889.

300 cases, crop of 1887, Wisconsin Havana, at 10 to 12 cents.

100 cases crop of 1887, New England Seed Leaf, at 12 cents.

120 cases, crop of 1887, New England Seed and Havana at 10 to 30 cents.

220 cases, crop of 1887-88 Pennsylvania Feed, at 10 to 14 cents.

120 cases Sandries, 5 to 30 cents.

Total, 1400 cases.

THE SONG OF THE SNIPSTER.

Little "snips" so ancient From the gutter we. Make the fragrant "two-fer" And the cigar "Lincoln State Journal."

The Little Seed.

A little seed lay in the carter's path; A little seed bowed in the strong wind's wrath; A little shrub grew by its roots held fast; And the carter bowed his head and said at last: "A little path came and began to grow, And the carter laid all his brave strength low."

Be wise in time. Check the little cough, cure the little chill, dispel the little sneeze, ere the little ailment becomes the strong, unconquerable giant of disease. Dr. Pierce's Golden Medical Discovery, taken in time, is a remedy for these ills.
